

Galvanized Sheet Wind Cooling Projector Housing Outdoor Projector Wall Cabinet For Heat Dissipation

Our Product Introduction

for more products please visit us on projector-cabinet.com

Basic Information

- Place of Origin: Shenzhen City, Guangdong Province, China
- Brand Name: shirui
- Certification: ip66/EMC/POHS
- Model Number: Non-standard customization
- Minimum Order Quantity: 5
- Price: Negotiation
- Delivery Time: 15 to 20 working days
- Payment Terms: T/T ,

Product Specification

- Installation: Easy To Install
- Durability: Highly Durable
- Heat Dissipation: Efficient Heat Dissipation
- Noise Reduction: Low Noise Level
- Ventilation: Optimal Ventilation
- Material: Galvanized Sheet
- Compatibility: Universal
- Protection: Protects Projector From Overheating
- Highlight: galvanized sheet wind cooling projector housing
, wind cooling projector housing outdoor,
projector wall cabinet for heat dissipation

Product Description

Galvanized Sheet Wind Cooling Projector Housing for Efficient Heat Dissipation

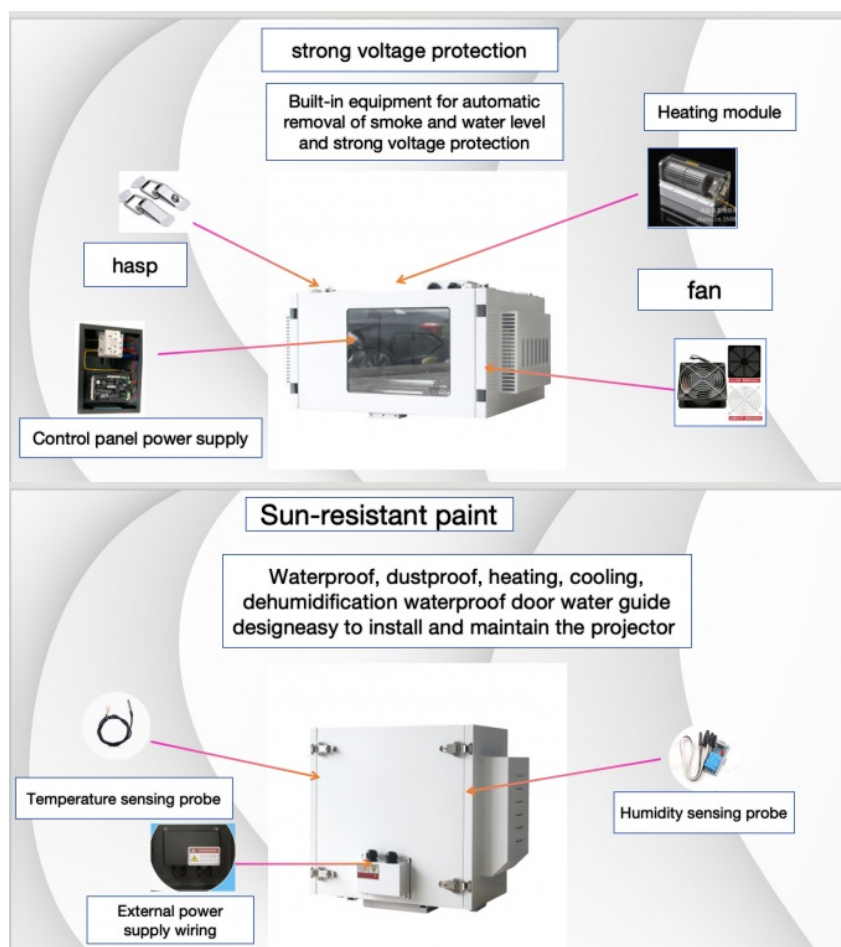

Description:

One of the standout features of this product is its optimal ventilation design. The Wind Cooling Projector Housing is designed to provide maximum airflow to your projector, ensuring that it stays cool and performs at its best. With this product, you can say goodbye to overheating projectors and hello to optimal performance.

In addition to its superior ventilation design, the Wind Cooling Projector Housing is also incredibly lightweight. This makes it easy to install and move around as needed.

The Wind Cooling Projector Housing also comes equipped with a cooling tower control panel. This panel allows you to easily adjust the settings of the energy-saving cooling fan that is included with this product. This cooling fan uses cool wind air to keep your projector at the optimal temperature, saving you money on energy costs and prolonging the life of your projector.

Overall, the Wind Cooling Projector Housing is an excellent investment for anyone looking to improve the performance and lifespan of their projector. With its universal compatibility, optimal ventilation, lightweight design, and energy-saving cooling fan, this product is sure to exceed your expectations.

Specification:

Specification	
item	value
Place of Origin	China
	Shenzhen, Guangdong
Brand Name	thisshirui
Cabinet Standard	According to customer's request
Protection Level	IP65
Type	Outdoor projector housing
External Size	can customize
Material	Powder paint
Type	Equipment Enclosure

Product Name	Outdoor projector housing
Material	Galvanized sheet
Surface treatment	Powder paint
Application	Outdoor Projector box
Function	climate control
Custom Service	Offerable
Feature	OEM ODM Support
Color	Accept Customized
IP Rating	IP66Waterproof Box
Ambient Temperature	-15 to 50 degree (5-122)
Ambient Humidity	0-100%
Temperature Control	5-40°C
Humidity Control	10-80%
Voltage and Frequency	220V-50HZ

FAQ:

1. who are we?

We are based in Guangdong, China, start from 2014,sell to Domestic Market(5.00%),Southeast Asia(3.00%),Mid East(2.00%). There are total about 11-50 people in our office.

2. how can we guarantee quality?

Always a pre-production sample before mass production;
Always final Inspection before shipment;

3.what can you buy from us?

Outdoor projector housing,Projector protective box,Projector waterproof box,Outdoor network cabinet,Sheet metal processing

4. why should you buy from us not from other suppliers?

We have an independent design and R&D team and 10 years of industry experience.

5. what services can we provide?

Accepted Delivery Terms: FOB,EXW

Accepted Payment Currency:USD,EUR,JPY,CAD,AUD,HKD,GBP,CNY;

Accepted Payment Type: T/T;

Language Spoken:English,Chinese

6. Where can I get product & price information?

A: Send us an inquiry e-mail, we will contact you as we receive your mail.

Moistureproof box configuration version

配置

1. The fresh air system+heating module (air cooling)
uses an industrial silent fan to fan the heat, and draws out the hot air in the box and sucks in the fresh air at the same time to form a circulation effect, which reduces the heat discharged by the projector in the box, and the heating module removes the fog of glass beads and dehumidifies.

2. Fresh air system (air-cooled)+air conditioner+heating module
fan+air conditioner is called dual system, and it can be used on large lumen machines, and it can also be used in harsh weather environment. Besides cooling, air conditioner can also dehumidify, and the heating module can remove the fog of glass water beads to dehumidify.

Production process materials

Production

design drawing

Designers model and design the shape, and export CAD drawings to customers to confirm the size and appearance.

laser cutting

After confirming the drawings and production materials, use the confirmed drawings for laser cutting.

bend

Folding the box shape by a six-axis bending machine for molding.

The folded parts are welded to complete the box by hand, and then polished for baking paint.

weld

Anti-static powder paint is waterproof, anti-corrosive, anti-static and high temperature resistant.

stove varnish

After baking, the finished product is assembled and tested, and the factory parameters are set and shipped without problems.

Reassemble

Packing & Delivery:

To better ensure the safety of your goods, professional, environmentally friendly, convenient and efficient packaging services will be provided.

Outdoor Projection Box ,

Product design
 CAD drawing for approval
 Swimming pool options for extreme humidity and heat,
 High humidity – Cave systems/underground/tunnel options for damp environments,
 Portrait, landscape or inverted
 Any number of doors,
 Thermal insulation,
 Any mounting i.e. uni-strut or M8 threaded studs,
 Any RAL colour finish,
 Any orientation - Vertical, landscape or portrait,
 Any IP rated cable entries. eg: Data, HDMI , SDI

Foreign customers come to visit the factory to buy products.:

Lead time:

Quantity (pieces)	1 - 50	> 50
Lead time (days)	20	To be negotiated
