

## IP65 Galvanized Sheet Outdoor Network Cabinet Outdoor Server Rack With Thermostat Temperature Control

Our Product Introduction

for more products please visit us on [projector-cabinet.com](http://projector-cabinet.com)

### Basic Information

- Place of Origin: Shenzhen City, Guangdong Province, China
- Brand Name: shirui
- Certification: ip66/EMC/POHS
- Model Number: Non-standard customization
- Minimum Order Quantity: 5
- Price: Negotiation
- Delivery Time: 15 to 20 working days
- Payment Terms: T/T

### Product Specification

- Features: Dust-proof, Water-proof, Anti-corrosion
- Temperature Control: Thermostat
- Cable Entry: Top And Bottom
- Material: Galvanized Sheet
- Protection Level: IP65
- Cooling Method: Air Cooled
- Ventilation: Built-in Fan
- Size: Customizable
- Highlight: ip65 outdoor server rack,  
ip65 server rack outdoor,  
thermostat outdoor server rack

### Product Description

## IP65 Galvanized Sheet Outdoor Network Cabinet with Thermostat Temperature Control

### Product Description:

The cabinet is equipped with a double door system, allowing easy access to your equipment while providing added security. The compact unit comes with a built-in cooler system, which includes an air cooled condensing unit and an air cooled modular chiller. These features work together to maintain a stable temperature within the cabinet, protecting your equipment from overheating and potential damage. The air cooled system is ideal for outdoor use, as it eliminates the need for additional water supply and drainage systems. This makes it a more economical and practical choice for outdoor telecommunication equipment that requires temperature control.

The thermostat temperature control system ensures that the temperature is kept at a constant level, making it suitable for use in a variety of environments. Whether it's a hot summer day or a cold winter night, the Air Cooled Outdoor Network Cabinet will provide the necessary protection and temperature control to keep your equipment running smoothly.

With its customizable size, the cabinet can accommodate a variety of equipment sizes and configurations. This makes it an ideal solution for a range of outdoor telecommunication applications, from small scale operations to large industrial installations.

In summary, the Air Cooled Outdoor Network Cabinet is a reliable, efficient, and practical solution for outdoor telecommunication equipment. Its compact size, double door system, air cooled condensing unit, air cooled modular chiller, and thermostat temperature control system make it the perfect choice for a variety of applications.

### Specification:

Specification	
item	value
Place of Origin	China
	Shenzhen, Guangdong
Brand Name	thisshirui/Customize
Cabinet Standard	According to customer's request
Size	Floor standing
Protection Level	IP65
Type	Network cabinet
External Size	
Material	Powder paint
Type	Equipment Enclosure
Product Name	Outdoor waterproof network cabinet
Material	Galvanized Steel
Surface treatment	Powder paint
Application	Outdoor
Function	climate control
Custom Service	Offerable
Feature	OEM ODM Support
Color	Accept Customized
IP Rating	IP66Waterproof Box
Ambient Temperature	-15 to 50 degree (5-122)
Ambient Humidity	0-100%
Temperature Control	5-40°C
Humidity Control	10-80%
Voltage and Frequency	220V-50HZ

### FAQ:

#### 1. who are we?

We are based in Guangdong, China, start from 2014,sell to Domestic Market(5.00%),Southeast Asia(3.00%),Mid East(2.00%). There are total about 11-50 people in our office.

#### 2. how can we guarantee quality?

Always a pre-production sample before mass production;

Always final Inspection before shipment;

#### 3.what can you buy from us?

Outdoor projector housing, Projector protective box, Projector waterproof box, Outdoor network cabinet, Sheet metal processing

#### 4. why should you buy from us not from other suppliers?

We have an independent design and R&D team and 10 years of industry experience.

#### 5. what services can we provide?

Accepted Delivery Terms: FOB, EXW

Accepted Payment Currency: USD, EUR, JPY, CAD, AUD, HKD, GBP, CNY;

Accepted Payment Type: T/T;

Language Spoken: English, Chinese

#### 6. Where can I get product & price information?

A: Send us an inquiry e-mail, we will contact you as we receive your mail.

#### Moistureproof box configuration version:

### Moistureproof box configuration version

#### 配置

**1. The fresh air system+heating module (air cooling)**  
uses an industrial silent fan to fan the heat, and draws out the hot air in the box and sucks in the fresh air at the same time to form a circulation effect, which reduces the heat discharged by the projector in the box, and the heating module removes the fog of glass beads and dehumidifies.

**2. Fresh air system (air-cooled)+air conditioner+heating module**  
fan+air conditioner is called dual system, and it can be used on large lumen machines, and it can also be used in harsh weather environment. Besides cooling, air conditioner can also dehumidify, and the heating module can remove the fog of glass water beads to dehumidify.

fan

air-conditioning

### Production process materials

#### Production

design drawing

laser cutting

bend

Designers model and design the shape, and export CAD drawings to customers to confirm the size and appearance.

After confirming the drawings and production materials, use the confirmed drawings for laser cutting.

Folding the box shape by a six-axis bending machine for molding.

The folded parts are welded to complete the box by hand, and then polished for baking paint.

Anti-static powder paint is waterproof, anti-corrosive, anti-static and high temperature resistant.

After baking, the finished product is assembled and tested, and the factory parameters are set and shipped without problems.

#### Packing & Delivery:

To better ensure the safety of your goods, professional, environmentally friendly, convenient and efficient packaging services will be provided.

Outdoor Projection Box ,  
 Product design  
 CAD drawing for approval  
 Swimming pool options for extreme humidity and heat,  
 High humidity – Cave systems/underground/tunnel options for damp environments,  
 Portrait, landscape or inverted  
 Any number of doors,  
 Thermal insulation,  
 Any mounting i.e. uni-strut or M8 threaded studs,  
 Any RAL colour finish,

Any orientation - Vertical, landscape or portrait,  
Any IP rated cable entries. eg: Data, HDMI , SDI

Lead time:

Quantity (pieces)	1 - 50	> 50
Lead time (days)	20	To be negotiated
