Product Description

Outdoor Projector Waterproof Box The Must-Have for Outdoor Projection Environments

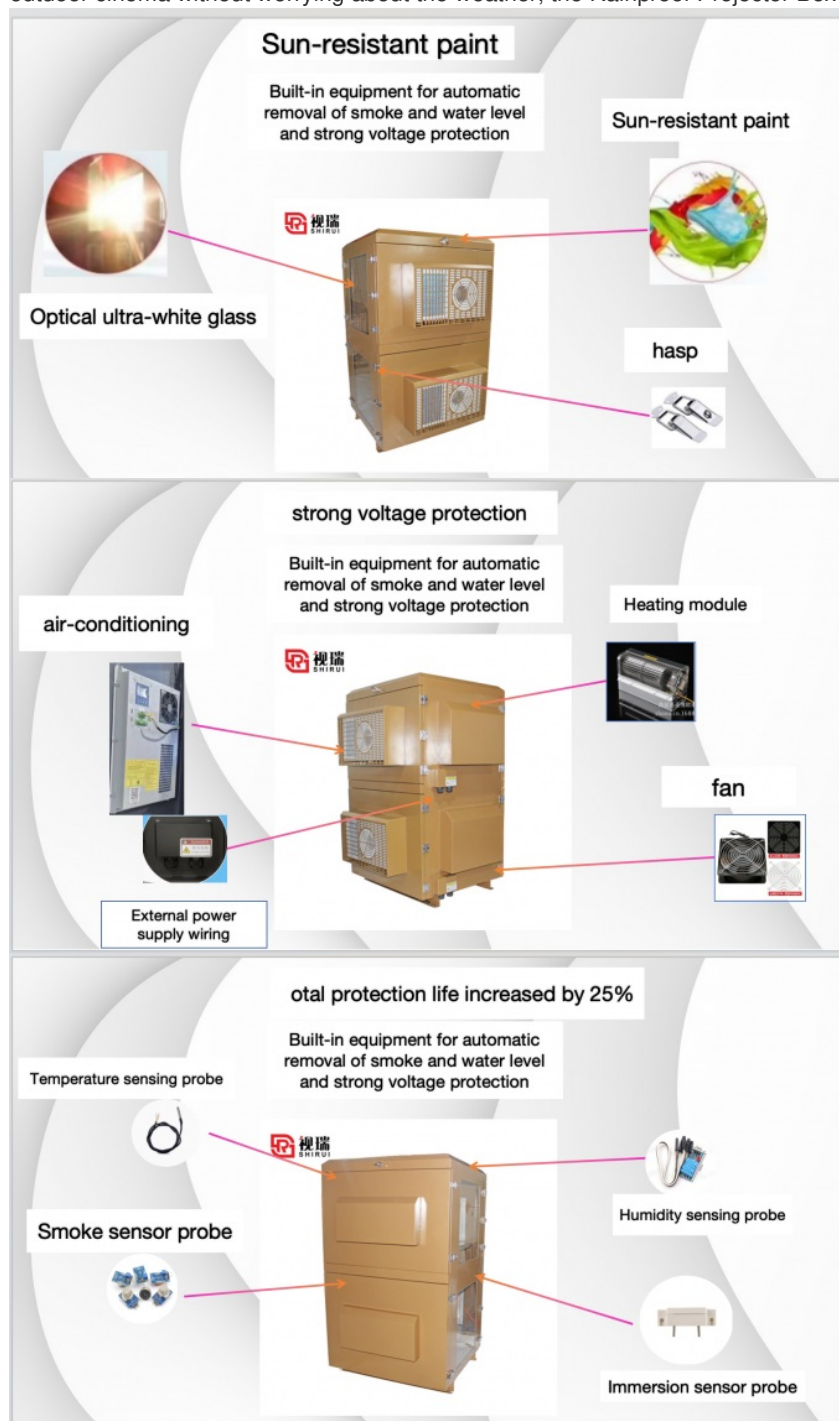

Product Description:

The Rainproof Projector Box is wall-mounted, making it easy to install in any outdoor space. It is designed to hold projectors weighing up to 56kg, so you can be sure that your projector will be safe and secure. The box is made from high-quality materials that are built to last. It is durable, weather-resistant, and easy to clean.

The Rainproof Projector Box is dust-proof, which means that you can enjoy your outdoor cinema experience without worrying about dust and other particles getting into your projector. The box is also designed to protect your projector from other outdoor elements, such as rain and wind. This means that you can enjoy your movie or presentation without any interruptions.

The Rainproof Projector Box is perfect for outdoor events, such as outdoor movie nights, garden parties, and business presentations. It is a great investment for anyone who wants to enjoy outdoor cinema on a regular basis. The box is easy to use, and it is designed to keep your projector safe and secure.

In summary, the Rainproof Projector Box is a must-have for anyone who loves spending time outdoors. It is a high-quality Outdoor Projector Housing that is designed to protect your projector from rain, dust, and other outdoor elements. With its wall-mounted design, you can easily install it in any outdoor space. The box is also dust-proof and capable of holding projectors weighing up to 56kg. So, if you want to enjoy outdoor cinema without worrying about the weather, the Rainproof Projector Box is the perfect solution.

Mechanical arm welding

Large six-axis bending machine

Eight-axis high-precision bending machine

Production process materials

Production

 design drawing	Designers model and design the shape, and export CAD drawings to customers to confirm the size and appearance.	The folded parts are welded to complete the box by hand, and then polished for baking paint.	 weld
 laser cutting	After confirming the drawings and production materials, use the confirmed drawings for laser cutting.	Anti-static powder paint is waterproof, anti-corrosive, anti-static and high temperature resistant.	 stove varnish
 bend	Folding the box shape by a six-axis bending machine for molding.	After baking, the finished product is assembled and tested, and the factory parameters are set and shipped without problems.	 Reassemble
