

Cooling Projector Housing Projector Box 500W AC 100V - 220V IP65 Protection Level

Our Product Introduction

for more products please visit us on projector-cabinet.com

Basic Information

- Place of Origin: Shenzhen City, Guangdong Province, China
- Brand Name: shirui
- Certification: ip66/EMC/POHS
- Model Number: Non-standard customization
- Minimum Order Quantity: 5
- Price: Negotiation
- Delivery Time: 15 to 20 working days
- Payment Terms: T/T

Product Specification

- Power Supply: AC 100-220V
- Heat Dissipation: Efficient
- Power Consumption: 500W
- Protection Level: IP65
- Cooling Method: Wind Cooling
- Installation Method: Screw Fixing
- Compatibility: Universal
- Application: Outdoor/Indoor Use
- Fan Speed: 6000 RPM
- Material: Galvanized Sheet
- Highlight: 500w projector box,
500w cooling projector housing,
100v projector box

Product Description

Cooling Projector Housing 500W AC 100-220V Power Supply IP65 Protection Level Product

Description:

The Wind Chill Video Projector Case is made from high-quality galvanized sheet material, which guarantees durability and resilience. The material is highly resistant to corrosion, rust, and other forms of degradation that can cause damage to the projector. The housing is designed with a unique ventilation system that allows for proper air circulation, preventing the projector from overheating and ultimately prolonging the lifespan of the device.

Box structure:

The protective box structure is divided into six parts, namely, the outer layer of the sheet metal body, the intelligent motherboard control box, the waterproof door for installation and maintenance, the projector adjustment base, the high-permeability optical glass, the stainless steel installation lifting ring and the protective box adjustment base. The placement mode, projection mode and installation mode of the protective box determine the overall structural design of the protective box. The design of the protective box not only considers the stability of the working environment of the projector, but also meets the projection angle of the projector and its safety in public places.

Specification:

Specification	
item	value
Place of Origin	China
	Shenzhen, Guangdong
Brand Name	thisshirui
Cabinet Standard	According to customer's request
Protection Level	IP65
Type	Outdoor projector housing
External Size	can customize
Material	Powder paint
Type	Equipment Enclosure
Product Name	Outdoor projector housing
Material	Galvanized sheet
Surface treatment	Powder paint
Application	Outdoor Projector box
Function	climate control
Custom Service	Offerable
Feature	OEM ODM Support
Color	Accept Customized
IP Rating	IP66Waterproof Box
Ambient Temperature	-15 to 50 degree (5-122)
Ambient Humidity	0-100%
Temperature Control	5-40°C
Humidity Control	10-80%
Voltage and Frequency	220V-50HZ

FAQ:**1. who are we?**

We are based in Guangdong, China, start from 2014,sell to Domestic Market(5.00%),Southeast Asia(3.00%),Mid East(2.00%). There are total about 11-50 people in our office.

2. how can we guarantee quality?

Always a pre-production sample before mass production;

Always final Inspection before shipment;

3.what can you buy from us?

Outdoor projector housing,Projector protective box,Projector waterproof box,Outdoor network cabinet,Sheet metal processing

4. why should you buy from us not from other suppliers?

We have an independent design and R&D team and 10 years of industry experience.

5. what services can we provide?

Accepted Delivery Terms: FOB,EXW

Accepted Payment Currency:USD,EUR,JPY,CAD,AUD,HKD,GBP,CNY;

Accepted Payment Type: T/T;

Language Spoken:English,Chinese

6. Where can I get product & price information?

A: Send us an inquiry e-mail, we will contact you as we receive your mail.

Large laser cutting machine

Mechanical arm welding

Large six-axis bending machine

Eight-axis high-precision bending machine

Production process materials

Production

design drawing

Designers model and design the shape, and export CAD drawings to customers to confirm the size and appearance.

laser cutting

After confirming the drawings and production materials, use the confirmed drawings for laser cutting.

bend

Folding the box shape by a six-axis bending machine for molding.

The folded parts are welded to complete the box by hand, and then polished for baking paint.

weld

Anti-static powder paint is waterproof, anti-corrosive, anti-static and high temperature resistant.

stove varnish

After baking, the finished product is assembled and tested, and the factory parameters are set and shipped without problems.

Foreign customers come to visit the factory to buy products:

Packing & Delivery:

To better ensure the safety of your goods, professional, environmentally friendly, convenient and efficient packaging services will be provided.

Outdoor Projection Box ,
 Product design
 CAD drawing for approval
 Swimming pool options for extreme humidity and heat,
 High humidity – Cave systems/underground/tunnel options for damp environments,
 Portrait, landscape or inverted
 Any number of doors,
 Thermal insulation,
 Any mounting i.e. uni-strut or M8 threaded studs,
 Any RAL colour finish,

Any orientation - Vertical, landscape or portrait,
Any IP rated cable entries. eg: Data, HDMI , SDI

Lead time:

Quantity (pieces)	1 - 50	> 50
Lead time (days)	20	To be negotiated
