Product Description

outdoor projector housing Ip66 waterproof box for projector shell is waterproof, dustproof and anticorrosive.

Ip66 waterproof box for projector shell is waterproof, dustproof and anticorrosive.

Elevate your outdoor entertainment experience with our Outdoor Projector Enclosure – the ideal solution for protecting your valuable projector equipment in any weather conditions.

Key Features:

1. **Weatherproof Protection:** Our outdoor projector enclosure is designed with a robust weatherproof construction, providing complete protection from rain, snow, dust, and extreme temperatures. With an IP65 rating, it ensures your projector stays safe in challenging outdoor environments.

2. **Temperature Control:** The integrated temperature control system ensures optimal operating conditions for your projector. It prevents overheating in hot weather and maintains consistent performance even in cold conditions, extending the lifespan of your equipment.

Specification:

Specification	
item	value

Large laser cutting machine

Mechanical arm welding

Large six-axis bending machine

Eight-axis high-precision bending machine

Production process materials

Production

 design drawing	Designers model and design the shape, and export CAD drawings to customers to confirm the size and appearance.	The folded parts are welded to complete the box by hand, and then polished for baking paint.	 weld
 laser cutting	After confirming the drawings and production materials, use the confirmed drawings for laser cutting.	Anti-static powder paint is waterproof, anti-corrosive, anti-static and high temperature resistant.	 stove varnish
 bend	Folding the box shape by a six-axis bending machine for molding.	After baking, the finished product is assembled and tested, and the factory parameters are set and shipped without problems.	 Reassemble
