

Waterproof projector housing thermostat Ip65 dustproof video outdoor projector housing

Our Product Introduction

for more products please visit us on projector-cabinet.com

Basic Information

- Place of Origin: Shenzhen City, Guangdong Province, China
- Brand Name: shirui
- Certification: ip66/EMC/POHS
- Model Number: Non-standard customization
- Minimum Order Quantity: 5
- Price: Negotiation
- Delivery Time: 15 to 20 working days
- Payment Terms: T/T

Product Specification

- Power Consumption: 500W
- Installation Method: Screw Mount
- Operating Temperature: 0-40 Degrees Celsius
- Compatibility: Universal
- Package Contents: 1 X Wind Cooling Projector Housing, 1 X Mounting Screws
- Noise Level: Less Than 30 DB
- Weight: 45kg
- Fan Speed: 6000 RPM
- Highlight: waterproof outdoor projector housing, waterproof projector housing outdoor, ip65 outdoor projector housing

Product Description

Waterproof projector housing thermostat Ip65 dustproof video outdoor projector housing**Main features:**

1. Weatherproof protection: Our outdoor projector housing is designed with strong weatherproof structure, which provides comprehensive protection from rain, snow, dust and extreme temperature. IP65 grade ensures that your projector remains safe in a challenging outdoor environment.
2. Customization options: We provide customization and OEM solutions, so that you can customize the housing according to specific projector models and preferences. You can choose from a range of sizes and finishes to meet your unique needs.

Note:

All units are designed to operate on a 220V/50Hz electrical system (modifiable for different countries) and come with an IP65 waterproof rating. They feature precise temperature and humidity control, ensuring a constant climate. These units are engineered to perform reliably in a wide temperature range, from as low as -50 degrees Celsius to as high as 50 degrees Celsius. For applications near the coast, we offer customized corrosion-resistant enclosures.

Specification:

Specification	
item	value
Place of Origin	China
	Shenzhen, Guangdong

Designers model and design the shape, and export CAD drawings to customers to confirm the size and appearance.

After confirming the drawings and production materials, use the confirmed drawings for laser cutting.

Folding the box shape by a six-axis bending machine for molding.

The folded parts are welded to complete the box by hand, and then polished for baking paint.

Anti-static powder paint is waterproof, anti-corrosive, anti-static and high temperature resistant.

After baking, the finished product is assembled and tested, and the factory parameters are set and shipped without problems.
