Production process materials

Production

design drawing

Designers model and design the shape, and export CAD drawings to customers to confirm the size and appearance.

laser cutting

After confirming the drawings and production materials, use the confirmed drawings for laser cutting.

bend

Folding the box shape by a six-axis bending machine for molding.

The folded parts are welded to complete the box by hand, and then polished for baking paint.

weld

Anti-static powder paint is waterproof, anti-corrosive, anti-static and high temperature resistant.

stove varnish

After baking, the finished product is assembled and tested, and the factory parameters are set and shipped without problems.
