

## outdoor projector housing Outdoor projector shell waterproof ip66 anticorrosive dustproof control box

Our Product Introduction

### Basic Information

- Place of Origin: Shenzhen City, Guangdong Province, China
- Brand Name: shirui
- Certification: ip66/EMC/POHS
- Model Number: Non-standard customization
- Minimum Order Quantity: 5
- Price: Negotiation
- Delivery Time: 15 to 20 working days
- Payment Terms: T/T

### Product Specification

- Noise Level: Less Than 40 DB
- Installation Type: Wall Mounted
- Model: Projector Housing
- Heating Capacity: 12000 BTU
- Material: Galvanized Sheet
- Power Source: Electric
- Voltage: 110-220V
- Frequency: 50/Hz
- Projection Size: 100-150 Inches
- Mounting Type: Wall Mount
- Warranty: 1 Year
- Color: Black
- Heater Power: 400w

### Product Description

## outdoor projector housing Outdoor projector shell waterproof ip66 anticorrosive dustproof control box

### Product Description:

1. The thermostat has the functions of waterproof, dustproof, anti-corrosion, windproof, heating and dehumidification;
2. The projector platform can linearly adjust the angle  $\leq 10^\circ$ , and can also customize a larger adjustment angle.
3. Multi-door structure design is convenient for projector installation and maintenance.
4. A heat blowing device is installed inside to ensure that there is no frosting fog on the surface of the projection port;
5. The tripod and door body are strengthened by strong wind curing, and rings are installed to ensure the safety of the thermostat before and after installation.

### Ceiling installation: safe and stable

The ceiling-mounted enclosure is the safest and most stable installation option. They are also the most versatile, because they can be installed anywhere with ceilings.

For applications where safety and stability are critical, a ceiling-mounted enclosure is a good choice. They are also a good choice for applications that need to install the projector in a higher position, such as stadiums or outdoor theaters.

### Track installation: flexible and adjustable

The track mounting shell is flexible and adjustable. They can move along the track to change the position of the projector.

Rail-mounted chassis is a good choice for applications that need to move projectors frequently, such as conference rooms or outdoor classrooms. For the need to install the projector in a ceiling with limited clearance, such as a beam.

### Column installation: fashion and caution

The cylindrical shell is smooth and cautious. They are a good choice for applications that need to install the projector in a visible position, such as hotel lobby or outdoor restaurant.

The column housing is a good choice for applications that need to protect the projector from theft. They are also a good choice for applications that need to install projectors in narrow spaces (such as columns).

## Ground installation: durable and versatile.

The ground-mounted shell is durable and widely used. They can be installed in various locations, including concrete, asphalt and grass.

The ground-mounted enclosure is a good choice for applications that need to install the projector in a lower position, such as parks or outdoor activity spaces. For those who need to protect the projector from elements such as snow or rain.
