

## outdoor projector housing Outdoor waterproof projector shell control box Ip65 dustproof

Our Product Introduction

### Basic Information

- Place of Origin: Shenzhen City, Guangdong Province, China
- Brand Name: shirui
- Certification: ip66/EMC/POHS
- Model Number: Non-standard customization
- Minimum Order Quantity: 5
- Price: Negotiation
- Delivery Time: 15 to 20 working days
- Payment Terms: T/T

### Product Specification

- Material: Galvanized Sheet
- Installation Type: Wall Mounted
- Size: Customized
- Heating Capacity: 12000 BTU
- Power Source: Electricity
- Model: Projector Housing
- Frequency: 50Hz/60Hz
- Noise Level: 50 DB
- Cooling Method: Air Cooling
- Compatibility: Compatible With Most Air Conditioning Units
- Warranty: 1 Year
- Operating Temperature: 0-40 Degrees Celsius
- Application: Indoor/Outdoor Use

## outdoor projector housing Outdoor waterproof projector shell control box Ip65 dustproof

### Product Description:

1. Material: stainless steel and galvanized sheet spraying 2. Waterproof, weatherproof, insect-proof, dust-proof, anti-corrosion and moisture-proof 3. Users can choose refrigeration, fan, air conditioning, remote monitoring, internal heating and other functions according to the requirements of the projector and site conditions.

### Ceiling installation: safe and stable

The ceiling-mounted enclosure is the safest and most stable installation option. They are also the most versatile, because they can be installed anywhere with ceilings.

For applications where safety and stability are critical, a ceiling-mounted enclosure is a good choice. They are also a good choice for applications that need to install the projector in a higher position, such as stadiums or outdoor theaters.

### Track installation: flexible and adjustable

The track mounting shell is flexible and adjustable. They can move along the track to change the position of the projector.

Rail-mounted chassis is a good choice for applications that need to move projectors frequently, such as conference rooms or outdoor classrooms. For the need to install the projector in a ceiling with limited clearance, such as a beam.

## Column installation: fashion and caution

The cylindrical shell is smooth and cautious. They are a good choice for applications that need to install the projector in a visible position, such as hotel lobby or outdoor restaurant.

The column housing is a good choice for applications that need to protect the projector from theft. They are also a good choice for applications that need to install projectors in narrow spaces (such as columns).

## Ground installation: durable and versatile.

The ground-mounted shell is durable and widely used. They can be installed in various locations, including concrete, asphalt and grass.

The ground-mounted enclosure is a good choice for applications that need to install the projector in a lower position, such as parks or outdoor activity spaces. For those who need to protect the projector from elements such as snow or rain.
