

Customizable Projector Waterproof Box Projector Screen Cabinet With Temperature Sensor

Our Product Introduction

for more products please visit us on projector-cabinet.com

Basic Information

- Place of Origin: China, Shenzhen, Guangdong
- Brand Name: thisshirui
- Certification: ip66/EMC/POHS
- Model Number: Non-standard customization
- Minimum Order Quantity: 5
- Price: Negotiation
- Delivery Time: 15 to 20 working days
- Payment Terms: T/T

Product Specification

- Installation Method: Wall-mounted
- Wattage: 50W
- Surface Treatment: Powder Paint
- Dustproof Level: IP6X
- Custom Service: Offerable
- Color: White
- Size: Medium
- Highlight: customizable projector waterproof box, projector screen cabinet with temperature sensor, customizable projector screen cabinet

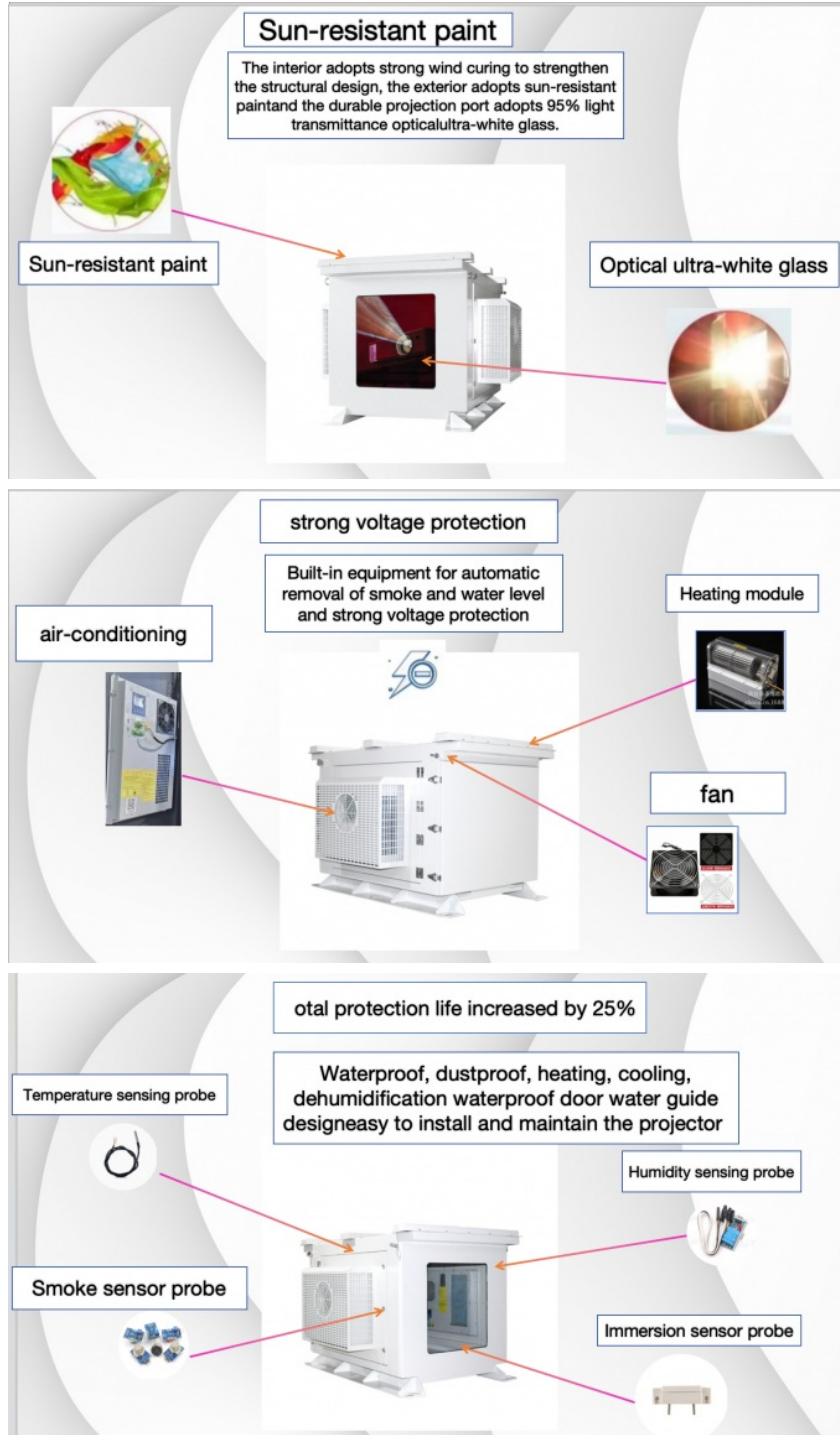

Product Description

Customizable Outdoor Projector Waterproof Box with Temperature Sensor

Customizable Outdoor Projector Waterproof Box with Temperature Sensor for Outdoor Projector Protection

1. Air conditioning internal circulation

1. The box body is made of high-quality galvanized sheet with a thickness of 1.2/1.5/2.0/3.0, and stainless steel, aluminum alloy and other materials can be selected.
2. The surface layer is electrostatically sprayed, baked and cured at high temperature, which has a long service life, and does not come off or crack.
3. The projection window uses ultra-white optical glass with a transmittance of over 95%.
4. Built-in intelligent control system, equipped with temperature sensor, temperature and humidity sensor and heating dehumidification module.
- 5, the temperature is lower than 5 degrees, humidity is higher than 90% heating start. When the temperature is higher than 10 degrees and the humidity is lower than 65%, the heating stops.

2.Specification

Specification	
item	value
Place of Origin	China
	Shenzhen, Guangdong
Brand Name	thisshirui
Cabinet Standard	According to customer's request

Protection Level	IP65
Type	Outdoor projector housing

Accepted Payment Type: T/T;

Language Spoken:English,Chinese

6. Where can I get product & price information?

A: Send us an inquiry e-mail, we will contact you as we receive your mail.

4.Outdoor Projector Enclosures Example

5. Moistureproof box configuration version

Ceiling installation: safe and stable

The ceiling-mounted enclosure is the safest and most stable installation option. They are also the most versatile, because they can be installed anywhere with ceilings.

For applications where safety and stability are critical, a ceiling-mounted enclosure is a good choice. They are also a good choice for applications that need to install the projector in a higher position, such as stadiums or outdoor theaters.

Track installation: flexible and adjustable

The track mounting shell is flexible and adjustable. They can move along the track to change the position of the projector.

Rail-mounted chassis is a good choice for applications that need to move projectors frequently, such as conference rooms or outdoor classrooms. For the need to install the projector in a ceiling with limited clearance, such as a beam.

Column installation: fashion and caution

The cylindrical shell is smooth and cautious. They are a good choice for applications that need to install the projector in a visible position, such as hotel lobby or outdoor restaurant.

The column housing is a good choice for applications that need to protect the projector from theft. They are also a good choice for applications that need to install projectors in narrow spaces (such as columns).
