

Outdoor Protection Projector Thermostatic Box Customized With Smart Air Cooling System

Our Product Introduction

for more products please visit us on projector-cabinet.com

Basic Information

- Minimum Order Quantity: 5
- Price: Negotiation
- Payment Terms: T/T

Product Specification

- Features: Lockable, Ventilation Holes
- Compatibility: Universal
- Noise Level: Low
- Color: Black
- Fan Type: Built-in
- Material: Plastic
- Dimensions: 12 X 10 X 8 Inches
- Built-In Fan: Yes
- Support Type: OEM
- Function: Climate Control
- Feature: OEM ODM Support
- Cable Management: Built-in Cable Gland
- Installation: Wall-mounted

Product Description

WhatsApp:+86 151 2090 9824

A projector thermostat is a device or system that helps regulate the temperature within a projector to ensure optimal performance and longevity. Projectors generate heat during operation, and excessive heat can lead to malfunctions, reduced image quality, and shortened lifespan. A thermostat monitors the internal temperature of the projector and adjusts cooling mechanisms (such as fans) to maintain a stable and safe operating temperature.

Outdoor Projector Enclosures Example

Specification	
item	value
Place of Origin	China
	Shenzhen, Guangdong
Brand Name	thisshirui
Cabinet Standard	According to customer's request
Protection Level	IP65
Type	Outdoor projector housing
