

## Outdoor Constant Temperature Video Projector Protective Box With Air Conditioning

Our Product Introduction

for more products please visit us on [projector-cabinet.com](http://projector-cabinet.com)

### Basic Information

### Product Specification

- Fan Type: Built-in
- Product Type: Projector Cabinet
- Oem Support: Yes
- Ventilation: Efficient
- Noise Level: Low
- Color: Black
- Installation: Easy
- Projector Cabinet: Yes
- Highlight: Outdoor video projector protective box , constant temperature video projector protective box , Projector Protective Box With Air Conditioning

- 1) The power supply of the intelligent measurement and control motherboard is stably output by the Magritte switching power supply;
- 2) There are built-in temperature control probes and temperature and humidity sensors;
- 3) There are three speed-regulating fans, and the peak speed of each fan is as high as 6000/ min, and the air volume is 5m<sup>3</sup>/ min;
- 4) When the temperature is 2 degrees higher than the preset temperature (30°C), the fan starts, and the higher the temperature, the faster the speed and the more the exhaust air volume.
- 5) F6 medium-effect air filter has the functions of ventilation, high efficiency, dust prevention and mosquito prevention.
- 6) heating module, the temperature is less than or equal to 5°C and the humidity is more than or equal to 85%, the heating is started, and the heating is stopped when the temperature is raised to 10°C and the humidity is less than or equal to 75%;
- 7) 16A or 10A multifunctional sockets are reserved;
- 8) The power supply of the projector is equipped with an AC contactor. If there is a fault alarm, the power supply will be switched on immediately to protect the projector.
- 9) If the temperature in the cabinet is higher than the preset value (30°C)≥2°C, the air conditioning and refrigeration will start, and if it is lower than the preset value ≤2°C, the refrigeration will stop working.
- 10) The indoor temperature is higher than the preset value (35°C)≥2°C, the fan cooling system is started, and the fan stops working when it is lower than the preset value ≤2°C.
- 11) It has passed the IP66 waterproof certification.

#### Outdoor Projector Enclosures Example

| Specification       |                                 |
|---------------------|---------------------------------|
| item                | value                           |
| Place of Origin     | China                           |
|                     | Shenzhen, Guangdong             |
| Brand Name          | thisshirui                      |
| Cabinet Standard    | According to customer's request |
| Protection Level    | IP65                            |
| Type                | Outdoor projector housing       |
| External Size       | can customize                   |
| Material            | Powder paint                    |
| Type                | Equipment Enclosure             |
| Product Name        | Outdoor projector housing       |
| Material            | Galvanized sheet                |
| Surface treatment   | Powder paint                    |
| Application         | Outdoor Projector box           |
| Function            | climate control                 |
| Custom Service      | Offerable                       |
| Feature             | OEM ODM Support                 |
| Color               | Accept Customized               |
| IP Rating           | IP66Waterproof Box              |
| Ambient Temperature | -15 to 50 degree (5-122)        |

|                       |           |
|-----------------------|-----------|
| Ambient Humidity      | 0-100%    |
| Temperature Control   | 5-40°C    |
| Humidity Control      | 10-80%    |
| Voltage and Frequency | 220V-50HZ |

### Production process materials

---

Foreign customers come to visit the factory to buy products.

---

### Packaging & Shipping

---

To better ensure the safety of your goods, professional, environmentally friendly, convenient and efficient packaging services will be provided.

Outdoor Projection Box ,  
 Product design  
 CAD drawing for approval  
 Swimming pool options for extreme humidity and heat,  
 High humidity – Cave systems/underground/tunnel options for damp environments,  
 Portrait, landscape or inverted  
 Any number of doors,  
 Thermal insulation,  
 Any mounting i.e. uni-strut or M8 threaded studs,  
 Any RAL colour finish,  
 Any orientation - Vertical, landscape or portrait,
