

Galvanized Sheet Material Outdoor Waterproof Box for Adjustable Temperature and Humidity with Energy Efficiency Rating A

Our Product Introduction

for more products please visit us on projector-cabinet.com

Basic Information

- Place of Origin: Shenzhen City, Guangdong Province
- Brand Name: shirui
- Model Number: Non-standard customization
- Minimum Order Quantity: 5
- Price: Negotiation
- Payment Terms: T/T

Product Specification

- Energy Efficiency Rating: A+
- Operating Temperature: -20~55 °C
- Operating Voltage: 220v
- Machinery Test Report: Provided
- Dehumidifying Function: Yes
- Auto Restart: Yes
- Power: 400W
- Oem Odm: Yes
- Highlight: Adjustable Temperature Waterproof Box, Energy Efficiency Rating A Waterproof Box, Outdoor Waterproof Box

1. The box body is made of high-quality galvanized sheet with a thickness of 1.2/1.5/2.0/3.0, and stainless steel, aluminum alloy and other materials can be selected.
2. The surface layer is electrostatically sprayed and cured by high-temperature baking, which has a durable service life, does not come off or crack.
3. The projection window is made of ultra-white optical glass with a transmittance of more than 95%.
4. Built-in intelligent control system, equipped with temperature sensor, temperature and humidity sensor and heating dehumidification module.
- 5, the temperature is lower than 5 degrees, humidity is higher than 90% heating start. Stop heating when the temperature is higher than 10 degrees and the is lower than 65%.

Outdoor Projector Enclosures Example

Outdoor projector enclosures have a wide range of applications, as they are designed to protect projectors in outdoor and challenging environments.

Elevate your outdoor entertainment experience with our Outdoor Projector Enclosure – the ideal solution for protecting your valuable projector equipment in any weather conditions.

Key Features:

Invest in protection, invest in excellence with our Outdoor Projector Enclosure.

1. Weatherproof Protection: Our outdoor projector enclosure is designed with a robust weatherproof construction, providing complete protection from rain, snow, dust, and extreme temperatures. With an IP65 rating, it ensures your projector stays safe in challenging outdoor environments.

2. Temperature Control: The integrated temperature control system ensures optimal operating conditions for your projector. It prevents overheating in hot weather and maintains consistent performance even in cold conditions, extending the lifespan of your equipment.

3. Customization Options: We offer custom and OEM solutions, allowing you to tailor the enclosure to your specific projector model and preferences. You can choose from a range of sizes and finishes to meet your unique needs.

4. Versatile Compatibility: Whether you have a home theater setup, outdoor events, or commercial applications, our projector enclosure is compatible with a wide range of projectors, making it a versatile choice for various settings.

5. Durable Build: Crafted from high-quality materials, the enclosure offers long-lasting durability, ensuring your projector

investment remains secure and functional over time. Bring your outdoor movie nights, sports events, or business presentations to a new level of quality and reliability with our Outdoor Projector Enclosure. Trust in its robust design, customizable options, and dependable weatherproofing to keep your projector safe and your outdoor entertainment memorable.

Foreign customers come to visit the factory to buy products.
